BAB I PENDAHULUAN .............................................................................................. 1

A. Latar Belakang ....................................................................................................... 1
B. Identifikasi Masalah .............................................................................................. 6
C. Tujuan Penelitian ................................................................................................ 6
D. Kegunaan Penelitian ............................................................................................ 6
E. Penelitian Terdahulu Dan Sekarang ................................................................. 7
F. Landasan Teori ...................................................................................................... 9
   1. Sumber Daya Manusia .................................................................................... 9
   2. Produktivitas ..................................................................................................... 9
   3. Tujuan Penilaian Produktivitas ..................................................................... 11
   4. Produktivitas Tenaga Kerja ......................................................................... 11
   5. Faktor – faktor Yang Mempengaruhi Produktivitas ..................................... 14
G. Kerangka Pemikiran .......................................................................................... 18
H. Hipotesis ............................................................................................................... 19
I. Pembatasan Penelitian ........................................................................................ 19
J. Definisi Operasional Dan Pengukuran Variabel .................................................. 19
K. Metodologi Penelitian ....................................................................................... 21
   1. Metode Penelitian .......................................................................................... 21
   2. Metode Pelaksanaan Penelitian .................................................................... 21
   3. Metode Penentun Lokasi .............................................................................. 22
   4. Metode Pengambilan Responden ................................................................ 22
   5. Macam, Sumber Dan Cara Pengambilan Data ........................................... 23
      a. Macam Data ............................................................................................... 23
      b. Sumber Data ............................................................................................... 23
      c. Teknik Pengumpulan Data ....................................................................... 23
L. Teknik Penguji Instrumen Penelitian ................................................................. 24
BAB II KEADAAN UMUM PERUSAHAAN .................................................. 32
A. Sejarah Singkat Berdirinya PT. Sawit Graha Manunggal .......................... 32
B. Luas Areal Perkebunan ........................................................................ 33
C. Topografi ............................................................................................... 33
D. Visi Dan Misi ......................................................................................... 33
E. Struktur Organisasi Dan Penjelasan Komplit /Rinci Terkait Struktur Organisasi ................................. 34
F. Ketenagakerjaan Dan Sistem pengupahan Panen PT.Sawit Graha Manunggal ................................................. 37
G. Kesejahteraan Karyawan ......................................................................... 38
H. Keselamatan dan Kesehatan Kerja ........................................................ 40
I. 7 Prinsip ISPO PT. Sawit Graha Manunggal ........................................ 41

BAB III BUDIDAYA KELAPA SAWIT ...................................................... 42
A. Budidaya Kelapa Sawit ........................................................................... 42
B. Pemanenan ............................................................................................. 47

BAB IV IDENTITAS TENAGA KERJA PEMANEN KELAPA SAWIT ............ 50
A. Pekerjaan Pemanen ................................................................................. 50
B. Umur Pemanen ....................................................................................... 51
C. Lama Kerja ............................................................................................ 52
D. Jarak tempuh ......................................................................................... 53

BAB V ANALISIS HASIL PENELITIAN DAN PENGUJIAN HIPOTESIS ........ 54
A. Analisis Produktivitas Tenaga Kerja ...................................................... 54
   a) Produktivitas ....................................................................................... 54
B. Faktor-Faktor Yang Mempengaruhi Produktivitas .................................. 55
   a) Disiplin Kerja ..................................................................................... 56
   b) Jarak Tempuh ................................................................................... 57
   c) Lama Kerja ....................................................................................... 57
   d) Umur Pemanen ............................................................................... 57
   e) Keterampilan ..................................................................................... 57
C. Pengujiian Hipotesis ............................................................................... 58
   1. Koefisien Determinasi ...................................................................... 59
   2. Uji F ................................................................................................. 60
3. Uji T .................................................................................................................. 61
4. Kendala – Kendala Yang Dihadapi Pemanen Kelapa Sawit .................................. 63

BAB VI PEMBAHASAN .................................................................................... 64

BAB VII KESIMPULAN DAN SARAN .................................................................. 68
   A. Kesimpulan ................................................................................................... 68
   B. Saran ........................................................................................................... 68
