BAB I. PENDAHULUAN .............................................................................. 1

1.1. Latar Belakang ................................................................................... 1
1.2. Rumusan Masalah ........................................................................... 1
1.3. Batasan Masalah ............................................................................. 2
1.4. Maksud dan Tujuan ........................................................................ 2
  1.4.1. Maksud ..................................................................................... 2
  1.4.2. Tujuan ..................................................................................... 2
1.5. Metodologi ....................................................................................... 2
1.6. Manfaat Penelitian .......................................................................... 2
1.7. Sistematika Penulisan ...................................................................... 4

BAB II. TINJAUAN UMUM LAPANGAN ...................................................... 5

2.1. Letak Geografis dan Sejarah Lapangan ........................................... 5
2.2. Tinjauan Geologi Lapangan Panasbumi Dieng ................................ 6
  2.2.1. Stratigrafi ................................................................................. 7
  2.2.2. Geologi Struktur ................................................................. 9
  2.2.3. Alterasi Hidrothermal ........................................................ 9
2.3. Tinjauan Kondisi Reservoir ............................................................ 11
