**THE BACKGROUND OF RELATIONSHIP RESTORATION BETWEEN UNITED  
STATES OF AMERICA AND SAUDI ARABIA IN THE PRESIDENTIAL  
ADMINISTRATION OF DONALD TRUMP**

**ABSTRACT**

This thesis discusses the background of relationship restoration between the United States and Saudi Arabia during the administration of President Donald Trump. Efforts to restore relations have been done since the reign of President George W. Bush and President Barack Obama, and relationship restoration successfully made during the reign of President Donald Trump. The relationship between the United States and Saudi Arabia has been going on since 1933, both countries are also known to have privileged relationships. Cooperation between the two countries also covers various fields such as, the economic field in oil cooperation, the political-security field in counter-communism and regional security cooperation, and the socio-cultural field in health, education and community development cooperation.

This thesis aims to determine the things behind the relationship restoration between the United States and Saudi Arabia during the reign of President Donald Trump. The research method used is descriptive research method which then generate some of the driving factors that influence the efforts of relationship restoration during the administration of President Donald Trump.
