

## **ABSTRACT**

*The purpose of this study was to study Regional Original Revenue (PAD) on economic growth per province in Java. The influence of the growth of the General Allocation Fund (DAU) on economic growth per the Province of Java Island. Effect of Special Allocation Funds (DAK) on economic growth Java Island Province.*

*The research method uses quantitative descriptive research. The data uses a combined data panel of time series data from 2011-2016 and cross section data in the provinces of DKI Jakarta, West Java, Central Java, DIY and East Java and Banten. Data Analysis Techniques using Multiple Regression Test, Statistical Test, Statistical Test F and Determination Coefficient ( $R^2$ ).*

*The results showed that the Regional Original Revenue Growth Variable (PAD) did not have a significant effect on economic growth per Java Island Province. The variable of General Allocation Fund growth (DAU) has a negative and significant influence on economic growth per the Province of Java. Variable growth of Special Allocation Funds (DAK) has a significant and negative influence on economic growth the Province of Java.*

*Keywords: PAD, DAU, DAK, Economic Growth, Per Provinsi of Java Island*
