

ABSTRACT

UD. Putra Diafan was one of andesite stone mining company where is located in the Tileng Hamlet, Pendoworejo Village, Girimulyo District, Kulon Progo, Yogyakarta Region, which still uses Kulon Progo Regency Regulation Number 6 of 2002 on Mining Permit Minerals Group C . The purpose of this research to knowing of the implementation company's mining activities of UD. Putra Diafan was accordance with applicable mining regulations that the illegitimacy Number 4 of 2009 on Mineral and Coal Mining. The rules of that implementation is the Government Regulation Number 23 of 2010 on the Implementation of Mining Business Activities of Mineral, Coal and Government Regulation No 55 of 2010 on the Development and Control of Business Management on Mineral and Coal Mining, and the factors that affect the implementation of mining activities in the company UD. Putra Diafan.

Data collection was divided into two: by directly its the activities carried out at the study site, including interview, field observation, data collection, and take a pictures on location of research on mining activities and that are appropriate or not by government regulation. Indirectly data collection is inventory of previous reports or studies that have been done by institutions (universities, local government, and research Institutions).

Based on observations in the field are still found by the illegitimacy Number 6 of 2002 On Mining Permit Minerals Group C which still refers to the illegitimacy Number 11 of 1967 on the Provisions on Mining which is not in accordance with the illegitimacy Number 4 of 2009 on Mineral and Coal Mining and application of the technique related with results of production activities (exploitation) was get the value of the overall predicate is B (medium) with a value of 52.83, obtained from the results of monitoring local government officials.

Based on this research it can be concluded that the accordance with transition on the provisions of Article 11 of the Minister of Energy and Mineral Resources Regulation Number 2 of 2013 on Supervision of the Implementation of the Mining Business Management implemented by the Provincial Government and Regency / City Government, the business activities of UD. Putra Diafan is Production Operations (mining) can still take place even though Kulon Progo still refers to the Kulon Progo Regency Regulation Number 6 of 2002 on Mining Permit Minerals Group C.

Mining activities at UD. Putra Diafan are technically good enough, because mining activity has been referred to the methods that already exist, such as open-pit mining. That is based on field observations turned out the application of the rules relating to the implementation of its still not fully implemented, some aspects of is openly Mining, Road transport, mine drainage, landfill cover handling.
