HALAMAN JUDUL ........................................................................................................................................ i
LEMBAR PENGESAHAN ...................................................................................................................... ii
ABSTRAK ................................................................................................................................................... iii
KATA PENGANTAR ................................................................................................................................... iv
BAB I. PENDAHULUAN ..............................................................................................................................
   A. Latar belakang ................................................................................................................................. 1
   B. Rumusan masalah ............................................................................................................................ 2
   C. Tujuan ............................................................................................................................................... 4
   D. Manfaat ............................................................................................................................................. 4

BAB II. TINJAUAN PUSTAKA .....................................................................................................................
   A. Kajian umum tanaman kakao ......................................................................................................... 5
   B. Penyimpanan benih kakao................................................................................................................ 10
   C. Media simpan ................................................................................................................................. 13
   D. Kerangka pemikiran ....................................................................................................................... 15
   E. Hipotesis ......................................................................................................................................... 17

BAB III. METODE PELAKSANAAN ........................................................................................................
   A. Tempat dan waktu penelitian ......................................................................................................... 18
   B. Bahan dan alat .................................................................................................................................. 18
   C. Metode penelitian ............................................................................................................................ 18
   D. Pelaksanaan penelitian .................................................................................................................... 19
   E. Parameter pengamatan .................................................................................................................... 21
   F. Analisis data .................................................................................................................................... 23

BAB IV. HASIL DAN ANALISIS HASIL ....................................................................................................
   A. Kadar air (%) .................................................................................................................................... 24
   B. Persentase perkecambahan(%) ...................................................................................................... 25
   C. Keserempakan tumbuh(%) ........................................................................................................... 26
   D. Laju perkecambahan (hari) ........................................................................................................... 27
   E. Daya kecambah(%) .......................................................................................................................... 28
BAB V. PEMBAHASAN DAN KESIMPULAN ..............................................
   A. Pembahasan ................................................................................. 30
   B. Kesimpulan ............................................................................. 35
   C. Saran ...................................................................................... 35
