

**KERJA SAMA JEPANG - INDIA DALAM SEKTOR KEHUTANAN**  
**MELALUI *JAPAN INTERNATIONAL COOPERATION AGENCY***  
**(JICA) TAHUN 2015-2018**

**ABSTRAK**

Kerja sama internasional merupakan sebuah proses interaksi antar bangsa negara yang memiliki tujuan yang berlandaskan pada kepentingan nasionalnya, serta berlandaskan pada asas saling percaya, saling menghargai kepentingan masing-masing, serta memiliki komitmen tinggi sehingga tercipta suatu keselarasan dalam mencapai suatu tujuan awal atau kepentingan bersama. Salah satu negara yang melakukan kerja sama internasional adalah India, India kaya akan tutupan hutan, menyadari akan permasalahan kehutanan di India tidak dapat diatasi sendiri, India melakukan kerja sama dengan Jepang dalam mengatasi permasalahan kehutanannya. Kerja sama Jepang dan India dilakukan dengan badan kerja sama internasional milik Jepang yang bernama *Japan International Cooperation Agency (JICA)*, dimana kerja sama dimulai pada tahun 1991 hingga saat ini. Sejak dimulai kerja sama kehutanan Jepang dan India melalui JICA telah memberikan dampak yang cukup besar hingga saat ini, terutama keberlangsungan hutan di India.

**ABSTRACT**

International cooperation is a process of interaction between nations that have goals based on their national interests, and are based on mutual trust, mutual respect for each other's interests, and have a high commitment to create harmony in achieving an initial goal or common interest. One of the countries that is conducting international cooperation is India, India is rich in forest cover, realizing that the forestry problem in India cannot be done alone, India is cooperating with Japan in overcoming its forestry problems. Cooperation between Japan and India is carried out with an international cooperation body belonging to Japan called Japan International Cooperation Agency (JICA), where cooperation started in 1991 until now. Since the start of the forestry cooperation between Japan and India through JICA, it has had a significant impact to date, especially the sustainability of forests in India.
