

KERJA SAMA INDONESIA DAN TIMOR LESTE DALAM BIDANG INFRASTRUKTUR

ABSTRAK

Skripsi ini membahas tentang hubungan kerja sama antara Indonesia dan Timor Leste dalam bidang infrastruktur. Timor Leste memiliki *Strategic Development Plan* (SDP) dimana memiliki tiga pilar utama yang salah satunya adalah pembangunan infrastruktur. Dalam memenuhi target pembangunan infrastrukturnya Timor Leste memiliki berbagai keterbatasan yang membuat Timor Leste tidak bisa melakukan pembangunan infrastrukturnya sendirian. Timor Leste membutuhkan mitra untuk pembangunan infrastrukturnya yang terpercaya dan memiliki kemampuan, pengalaman serta sumber daya manusia yang mumpuni. Indonesia menjadi mitra pembangunan Timor Leste karena kemampuan, pengalaman serta sumber daya manusia yang mumpuni dalam pembangunan infrastruktur dan juga melihat sejarah hubungan kedua negara yang sudah terjalin dengan erat. Kerja sama antara Indonesia dan Timor Leste dalam bidang infrastruktur ditandai lewat penandatanganan MoU pada 22 Maret 2011. Akan dibahas juga kondisi infrastruktur, kepentingan tiap negara serta proses dan implementasinya dalam kerja sama antara Indonesia dan Timor Leste dalam bidang infrastruktur.

INDONESIA AND TIMOR LESTE COOPERATION IN THE INFRASTRUCTURE SECTOR

ABSTRACT

This thesis discusses the cooperative relationship between Indonesia and Timor Leste in the infrastructure sector. Timor Leste has a Strategic Development Plan (SDP) which has three main pillars, one of which is infrastructure development. In meeting its infrastructure development target, Timor Leste has various limitations that prevent Timor Leste from carrying out its infrastructure development alone. Timor Leste needs partners for their infrastructure development who are reliable and have the ability, experience and qualified human resources. Indonesia has become a development partner of Timor Leste because of the ability, experience and qualified human resources in infrastructure development and also seeing the history of the close relationship between the two countries. The cooperation between Indonesia and Timor Leste in the infrastructure sector was marked by the signing of the Memorandum of Understanding (MoU) on 22th March 2011. This thesis will also discuss the condition of infrastructure; the interests of each country and the process; and implementation of the cooperation between Indonesia and Timor Leste in the infrastructure sector.
