Evaluation of Fish Cultivation Training Program at The Mina Kencana Fish Farmers Group Sindumartani Village Ngemplak Sleman Yogyakarta

: Raka Kristiyadi
Guided By : Eko Murdiyanto and Teguh Kismantoroadji

ABSTRACT

The evaluation of the program is an attempt to see if the implementation of the program is in accordance with the planning of the program. This research aims to (1) review the implementation of training programs implemented by KPI Mino Ngremboko. (2) Evaluate the implementation of training programs at the KPI Mina Kencana. This research used a qualitative approach. Informant determination technique is purposive sampling. The informants in this study were KPI Chairman Mino Ngremboko, KPI manager Mino Ngremboko, Chairman of KPI Mina Kencana, Member of KPI Mina Kencana. The execution method was taken with the Data Source. The data source was primary data and secondary data, data collection technique used observation, interview and documentation with data validity testing using triangulation techniques. Data analysis techniques were by collecting data, reducing data, presenting data and drawing conclusions. Research results (1) In the implementation of fish cultivation training program through program planning, program organizing, and program mobilization. In the implementation of fish cultivation training program requires implementation division, builders, and training division in organizing. In drive is the actualization of planning through time, location, staff, budget, and effectiveness of the program. (2) In the evaluation of the mentoring training program conducted by the fisheries and marine services of sleman district through field agriculture extension has not been in accordance with the planning, this is because KPI Mina Kencana does not carry out seeding activities but only carries out fish enlargement activities. Therefore, the need for mentoring so that KPI Mina kencana can do seeding activities.
