ABSTRAK

Penelitian ini bertujuan untuk (1) menganalisis subsektor yang menjadi basis pada sektor pertanian, kehutanan, dan perikanan di Kabupaten Magelang. (2) menganalisis persentase kontribusi setiap subsektor pertanian, kehutanan, dan perikanan terhadap pertumbuhan ekonomi di Kabupaten Magelang. (3) menganalisis laju pertumbuhan setiap subsektor pertanian, kehutanan, dan perikanan di Kabupaten Magelang. Metode penelitian yang digunakan adalah kuantitatif. Macam data yang digunakan adalah data sekunder. Data sekunder yang digunakan dalam penelitian ini adalah data PDRB Kabupaten Magelang dan PDRB Provinsi Jawa Tengah tahun 2010-2019 Atas Dasar Harga Konstan (ADHK) 2010, PDRB sektor pertanian Kabupaten Magelang dan PDRB sektor pertanian Provinsi Jawa Tengah tahun 2010-2019 ADHK 2010. Teknik analisis yang digunakan adalah *Location Quotient* (LQ), persentase kontribusi dan laju pertumbuhan. Hasil dari penelitian ini adalah (1) subsektor pertanian, peternakan, perburuan dan jasa pertanian merupakan subsektor basis, subsektor kehutanan dan penebangan kayu merupakan subsektor basis, dan subsektor perikanan merupakan subsektor non basis. (2) kontribusi subsektor pertanian, peternakan, perburuan dan jasa pertanian selama tahun 2010-2019 cenderung berfluktuatif, kontribusi subsektor kehutanan dan penebangan kayu selama tahun 2010-2019 cenderung mengalami penurunan, dan kontribusi subsektor perikanan selama tahun 2010-2019 cenderung mengalami kenaikan. (3) laju pertumbuhan subsektor pertanian, peternakan, perburuan dan jasa pertanian selama tahun 2010-2019 cenderung mengalami fluktuatif, subsektor kehutanan dan penebangan kayu selama tahun 2010-2019 cenderung mengalami kenaikan, serta subsektor perikanan selama tahun 2010-2019 cenderung mengalami fluktuatif.
