

## **ABSTRACT**

*This research aims to analyze the effect of Gross Domestic Product (GDP), dollar exchange rate, and balance of trade on Foreign Debt in Indonesia for the period 2015.01-2020.12. The secondary data used is time series data sourced from the Central Statistics Agency. Data analysis in this research used the Multiple Linear Regression Method. The results of this research indicate that Gross Domestic Product (GDP) and balance of trade have a positive and significant effect on Indonesia's foreign debt. The results of the analysis of the dollar exchange rate variable have no significant effect on Indonesia's foreign debt.*

*Keyword: GDP, dollar exchange rate, balance of trade, Foreign Debt*
