ABSTRACT	x
CHAPTER I INTRODUCTION	1
A. Background.....	1
B. Problem Formulation	3
C. Research Objective	4
D. Reseach Benefit	4
CHAPTER II LITERATURE REVIEW	5
A. Literature Review	5
1. Postharvest Chili and The Problem	6
2. Anthracnose Desease (<i>Colletotrichum</i> sp.) on Postharvest Chili	7
3. Secondary Metabolism of <i>Trichoderma harzianum</i>	10
4. Chitosan	11
5. Postharvest Chili Storage Temperature and The Role to Maintain Chili Quality	12
B. Framework	13
C. Hypothesis	14
CHAPTER III MATERIALS AND RESEARCH METHODS	15
A. Research Plan	15
B. Material	15
1. Stuff	15
2. Material.....	15
C. Research Methods.....	15
D. Research Implementation	16
E. Observation Parameters	20
F. Analysis of The Data	26
CHAPTER IV RESULT AND DISCUSSION ANALYSIS	27
A. The Result and The Analysis	27
1. In vitro Preliminary Test of Secondary Metabolites of <i>Trichoderma harzianum</i> UPN 16 for inhibiting <i>Colletotrichum</i> sp.	27

a. Incubation Time	27
b. Secondary Metabolite Inhibition Activity of <i>Trichoderma harzianum</i> UPN 16 for the diameter growth of <i>Colletotrichum</i> sp.	28
2. In vivo Treatment Test for Inhibiting The Growth of <i>Colletotrichum</i> sp. on Post Harvest Chili Fruit	29
a. Time of disease incubation.....	29
b. Fruit Weight Loss Percentage.....	31
c. Density of The Disease	33
d. Intensity of The Disease	34
e. Percentage of Disease Inhibition in Chili Fruit	38
CHAPTER V CONCLUSION AND SUGGESTION.....	45
BIBLIOGRAPHY	46
