

**MARSHA NADHIRA.** 2023. Analisis Potensi Sektor Pertanian Kehutanan, dan Perikanan di Provinsi Daerah Istimewa Yogyakarta. Di bawah arahan Siti Hamidah

#### ABSTRAK

Penelitian ini bertujuan untuk (1) Menganalisis sub sektor basis pada sektor pertanian, kehutanan, dan perikanan di Provinsi Daerah Istimewa Yogyakarta (2) Menganalisis peranan sub sektor pada sektor pertanian, kehutanan, dan perikanan di Provinsi Daerah Istimewa Yogyakarta (3) Menganalisis potensi sub sektor pada sektor pertanian, kehutanan, dan perikanan di Provinsi Daerah Istimewa Yogyakarta. Metode penelitian yaitu kuantitatif dengan pendekatan penelitian deskriptif. Metode pemilihan lokasi yaitu *purposive* dengan menggunakan data sekunder yang bersumber dari Badan Pusat Statistik dan Dinas Pertanian dan Ketahanan Pangan Provinsi DIY. Data yang digunakan yaitu PDRB Atas Dasar Harga Konstan 2010 Provinsi DIY dan PDB Nasional tahun 2016-2021. Metode analisis data yang digunakan yaitu analisis *location quotient (LQ)*, analisis tipologi kelas, analisis *Shift Share*. Hasil penelitian (1) sub sektor yang basis pada sektor pertanian, kehutanan, dan perikanan di Provinsi DIY yaitu sub sektor pertanian, peternakan, perburuan, dan jasa pertanian; sub subsektor tanaman pangan; tanaman hortikultura; peternakan, jasa pertanian dan perburuan; serta sub sektor kehutanan dan penebangan. (2) sub sektor pada sektor pertanian, kehutanan, dan perikanan yang memiliki potensi tinggi yaitu sub sektor pertanian, peternakan, perburuan, dan jasa pertanian sebesar 891.640,28 juta yang ditunjukkan oleh nilai pergeseran bersih (Dij) termasuk dalam sub sektor progresif (3) sub sektor pada sektor pertanian, kehutanan, dan perikanan yang memiliki peranan tinggi di Provinsi DIY yaitu sub subsektor tanaman pangan dan peternakan (Kuadran I).

Kata Kunci: Potensi, Pertanian, Sektor basis

**MARSHA NADHIRA.** 2023. *Analysis of the Potential of the Agriculture, Forestry and Fisheries Sector in the Province of the Special Region of Yogyakarta. Supervised by Siti Hamidah*

#### ABSTRACT

*This study aimed to (1) analyze the sub sector basis in the agriculture, forestry and fisheries sector in the Special Region of Yogyakarta Province (2) Analyze the role of sub-sectors in the agriculture, forestry and fisheries sector in the Special Region of Yogyakarta Province (3) Analyze the potential of sub-sectors in the agriculture, forestry and fisheries sector in the Special Region of Yogyakarta Province. The research method is quantitative with a descriptive research approach. The location selection method was purposive using secondary data sourced from the Central Bureau of Statistics and the Department of Agriculture and Food Security of the Province of DIY. The data used was Gross Regional Domestic Product (GRDP) at constant prices 2010 DIY Province and National Gross Domestic Product (GDP) for 2016-2021. The data analysis method used was location quotient (LQ) analysis, classen typology analysis, Shift Share analysis. The results of the research are (1) the sub-sectors basis of agriculture, forestry and fisheries in the Province of DIY, namely the sub-sectors of agriculture, livestock, hunting and agricultural services; food crops sub-sector; horticultural crops; livestock, agricultural and hunting services; as well as the forestry and logging sub-sector. (2) the sub-sectors in the agriculture, forestry and fisheries sectors that have high potential, namely the agriculture, livestock, hunting and agricultural services sub-sectors of 891,640.28 million as indicated by the net shift value (Dij) are included in the progressive sub-sector (3) the sub-sectors in the agriculture, forestry and fisheries sectors that have a high role in the DIY Province, namely the food crops and livestock sub-sub-sectors (Quadrant I).*
