

ABSTRAK

Galih Setyo Prasajo. 2023. Analisis Kontribusi Sub sektor Pertanian pada Sektor Pertanian di Kabupaten Sleman. Dibimbing Oleh : Indah Widowati.

ABSTRAK

Penelitian ini bertujuan untuk (1) Menganalisis struktur ekonomi sektor pertanian di Kabupaten Sleman, Daerah Istimewa Yogyakarta tahun 2017-2021. (2) Menganalisis kontribusi sub-sub sektor pertanian terhadap Pendapatan Domestik Regional Bruto sektor pertanian Kabupaten Sleman selama periode 2017-2021. (3) Menganalisis sub sektor pertanian yang merupakan sub sektor pertanian basis di Kabupaten Sleman, Daerah Istimewa Yogyakarta. (4) Menganalisis komoditi yang berperan sebagai komoditi basis di Kabupaten Sleman, Daerah Istimewa Yogyakarta. Jenis penelitian adalah penelitian kuantitatif. Metode penentuan lokasi menggunakan metode *purposive sampling*. Metode pengambilan data pada penelitian adalah studi pustaka dan dokumentasi. Teknik analisis data menggunakan analisis *Shift Share*, analisis kontribusi, dan analisis *Location Quotient* (LQ). Hasil penelitian menunjukkan bahwa (1) struktur ekonomi pertanian di Kabupaten Sleman didominasi oleh sub tanaman pangan dengan nilai kinerja kepada sektor pertanian sebesar Rp 36.516,105 juta, (2) kontribusi sub sektor pertanian, peternakan, perburuan dan jasa pertanian terhadap PDRB Kabupaten Sleman selama tahun 2017-2021 cenderung meningkat, kontribusi sub sektor kehutanan dan penebangan kayu cenderung berfluktuatif, dan kontribusi sub sektor perikanan cenderung berfluktuatif, (3) sub sektor pertanian, peternakan, perburuan dan jasa pertanian dan sub sektor perikanan merupakan sub sektor pertanian basis, (4) komoditas padi sawah, bawang merah, salak, tebu, dan ikan nila merupakan komoditas basis di Kabupaten Sleman.

Kata kunci : Sektor Pertanian, Kontribusi, Sub sektor Pertanian, Struktur ekonomi, Produk Domestik Regional Bruto

ABSTRACT

Galih Setyo Prasajo. 2023. *Analysis of the Contribution of the Agricultural Subsector in the Agricultural Sector of Sleman Regency. Supervised by : Indah Widowati.*

ABSTRACT

This research aims to (1) Analyze the economic structure of the agricultural sector in Sleman Regency, Special Region of Yogyakarta in 2017-2021. (2) Analyze the contribution of agricultural sub-sectors to the Gross Regional Domestic Income of the Sleman Regency agricultural sector during the 2017-2021 period. (3) Analyzing the agricultural sub-sector as a base agricultural sub-sector in Sleman Regency, Special Region of Yogyakarta. (4) Analyzing commodities that act as commodity bases in Sleman Regency, Special Region of Yogyakarta. This type of research is quantitative research. The method of determining the location of this research using a purposive sampling method. Data collection methods are literature and documentation studies. Data analysis techniques used Shift Share analysis, contribution analysis, and Location Quotient (LQ) analysis. The results of the research show that (1) the agricultural economic structure in Sleman Regency is dominated by food sub-crops with a performance value to the agricultural sector of IDR 36,516.105 million, (2) the contribution of the agricultural, livestock, hunting and agricultural services sub-sectors to Gross Regional Domestic in Sleman Regency during 2017-2021 tends to increase, the contribution the forestry and logging sub-sectors tend to fluctuate, and the contribution of the fisheries sub-sector tends to fluctuate, (3) the agriculture, livestock, hunting and agricultural services sub-sectors and the fisheries sub-sector are the basic agricultural sub-sectors, (4) the commodities of paddy, shallots snakefruit, sugar cane and tilapia are the basic commodities in Sleman Regency.

Keywords : Agricultural Sector, Contribution, Agricultural Subsector, Economic Structure, Gross Regional Domestic Product
