ABSTRAK

Peredaran gelap obat – obatan terlarang atau penyelundupan narkoba merupakan salah satu kejahatan transnasional yang menjadi perhatian global. Dalam penanganannya, masalah penyelundupan narkoba bersifat *shared responsibility*, sehingga kerja sama dengan banyak pihak diperlukan untuk mengatasi penyelundupan narkoba internasional. Badan Narkotika Nasional (BNN) menerapkan strategi pertahanan aktif (*active defense*) dalam mengatasi masalah penyelundupan narkoba internasional bersama dengan *Australian Federal Police* (AFP). Penggunaan strategi pertahanan aktif (*active defense*) pada hakikatnya merupakan strategi pertahanan yang secara aktif membangun sistem dan kapasitas pertahanan. Strategi ini dalam implementasinya mencakup pula tiga strategi pendekatan, yaitu *Soft Power Approach*, *Hard Power Approach*, *Smart Power Approach*. Ketiga strategi pendekatan ini memiliki peran dan ruang fokus yang berbeda, tetapi dalam pelaksanaannya berkaitan satu sama lain.

ABSTRACT

Illicit drug trafficking or drug smuggling is a transnational crime that is of global concern. In its handling, the problem of drug smuggling is shared responsibility, so cooperation with many parties is needed to overcome international drug smuggling. The National Narcotics Agency (BNN) implements an active defense strategy (active defense) in overcoming the problem of international drug smuggling together with Australian Federal Police (AFP). Use of active defense strategies (active defense). In essence, it is a defense strategy that actively builds defense systems and capacities. This strategy in its implementation also includes three strategic approaches, namely Soft Power Approach, Hard Power Approach, Smart Power Approach. These three strategic approaches have different roles and areas of focus, but in their implementation they are related to each other.
