

## DAFTAR RUJUKAN

- P. I. Edaigbini A., dan A. Maikobi. (2015): *Casing Design for High Pressure/High Temperature Wells*, Journal of International Knowledge Sharing Platform.
- Gunnar Skúlason Kaldal., Magnús Þ. Jónsson., Halldór Pálsson., Sigrún N. Karlsdóttir. (2013): *Collapse Analysis Of The Casing In High Temperature Wells*, Stanford University, Stanford, California.
- Zheng Shen., dan Frederick Eugene Beck. (2012): *Production Casing Collapse, Bursting, Tension Induced by Casing Wear in High-Temperature and High-Pressure Wells*, Journal of Petroleum Engineering.
- Millet C, Deffo M, Evin H, Néel G (2020) *Development of high strength grade and cost effective super martensitic stainless-steel solution for high CO<sub>2</sub>/H<sub>2</sub>S environment*. In: NACE International Corrosion Conference Proceedings. NACE International.
- Auwalu I. Mohammed., Mark Bartlett., Babs Oyenyin., Kambiz Kayvantash., dan James Njuguna. (2022): *Multi-Criteria Material Selection For Casing Design In Shale Gas Wells Application*, Journal of Petroleum Exploration and Production Technology.
- Yifei Yan., Bing Shao., Shengli Song., Jianjun Wang., dan Xiangzhen Yan. (2017): *Material selection research into casings in natural gas wells in a high-corrosion environment*, Institute of Thermomechanics CAS, 4A, 873 – 875.
- Rahman, S.S., dan George V. Chilingar. (1995): *Casing Design Theory and Practice*, Elsevier Science B.V., 42, 1 – 2, 9 – 16, 49 – 70.
- Adam. J. Neal. (1985): *Drilling Engineering a Complete Planning Approach*. PennWell Publishing Company, Tulsa, Oklahoma,
- Adam T., Bourgoyne Jr., Keith K. Millheim., Martin E Chenevert., dan F.S Young Jr. (1986): *Applied Drilling Engineering, First Printing*, Society Petroleum Engineer, Richardson, TX,.
- Aadnoy, B. S. *Multiple Criteria Casing Seat Selection Method*. IADC/SPE Drilling Conference and Exhibition. USA, California. 10 – 13 April 2024.
- Ameen, A. I. M., dan Sanjay R. J. (Vol 04 Issue 06, Jun 2017): *Detection of Abnormal Formation Pressures Using Drilling Parameters*. International Research Journal of Engineering and Technology (IRJET), pp 2071 – 2077.
- American Petroleum Institute (API) API SPEC 5CT: (2006): *Specification for casing and tubing*, 8th edn. API, Washington,
