Indexing

Abstracting, Indexing, other related databases, catalogue, reference citation etc.

A dedicated journal indexing team is working to include all of our journals in reputed indexing services or journal evaluation services or catalogue or reference citations, etc. **Authors should cross-check the authenticity of claims of indexing before submitting to any publisher (including our journal). We strongly encourage authors to take 'informed decision' before submission of any manuscript. In order to help the authors to take 'informed decision', we are providing web-links/proofs beside most of our claims of indexing or journal evaluation services. In addition, authors should visit the official site of the indexing organization or journal evaluation services before submitting any manuscript. We hope scholarly communities will appreciate our efforts to maintain integrity and transparency.**
