

SKRIPSI
PRARANCANGAN PABRIK KIMIA
AKRILONITRIL DARI PROPILEN, AMONIA, DAN UDARA
KAPASITAS 200.000 TON/TAHUN

DAFTAR PUSTAKA

- Alfred G., *et al.*, 1954, *Process for The Manufacture of Acrylonitrile*, US Patent: 2,692,276.
- Aoki., *et al.*, 1980, *Process for The Preparation of Acrylonitrile*, US Patent: 4,228,098.
- David C., 1962, *Process for The Preparation of Acrylonitrile from Propylene and Nitric Oxide*, US Patent: 3,023,226.
- Ernest C., 1965, *Process for The Manufacture of Acrylonitrile*, US Patent: 3,200,141.
- Fattore., *et al.*, 1978, *Manufacture of Acrylonitrile from Propylene, Ammonia and Oxygen*, US Patent: 4,082,785.
- Fogler S.H., 2006, *Elements of Chemical Reaction Engineering: 4th Edition*, USA: Pearson Education, Inc.
- Foster, R.T., 1948, *Manufacture of Acrylonitrile from Acetylene and HCN*, US Patent: 2,442,040.
- Garton., *et al.*, 2006, *Fixed Bed Reactor*, US Patent: 2006O178540A1.
- Geankoplis, Christie J. 1993. *Transport Processes and Unit Operations 3th Ed.* New Jersey: A Simon & Schuster Company.
- Hopper, J.R., *et al.*, 1993, *Waste Minimization by Process Modification*, Waste Management: Vol. 13, pp,3-14.
- Lucy, A.R.,1998, *Acrylonitrile Production Process*, UK Patent: 2316075.
- Robert E., 1964, *Process for Preparing Acrylic Acid and Acrylonitrile from Propylene*, US Patent: 3,118,927.
- Smith, J.M., 1970, *Chemical Engineering Kinetics 2nd Edition*, USA: McGraw-Hill, Inc.
- Suresh., *et al.*, 1993, *Catalyst for The Manufacture of Acrylonitrile and Methacrylonitrile*, US Patent: 5,212,137.
- Yaws C.L.,1999. *Chemical Properties Handbook*, New York: The McGraw-Hill Companies inc.
