

## DAFTAR ISI

|                                                          |     |
|----------------------------------------------------------|-----|
| KATA PENGANTAR.....                                      | iv  |
| RINGKASAN .....                                          | v   |
| SUMMARY .....                                            | vi  |
| DAFTAR ISI .....                                         | vii |
| DAFTAR GAMBAR .....                                      | ix  |
| DAFTAR TABEL .....                                       | x   |
| BAB I PENDAHULUAN .....                                  | 1   |
| 1.1. Latar Belakang Masalah .....                        | 1   |
| 1.2. Perumusan Masalah.....                              | 3   |
| 1.3. Tujuan Penelitian .....                             | 3   |
| 1.4. Batasan Masalah .....                               | 3   |
| 1.5. Tinjauan Pustaka.....                               | 4   |
| 1.6. Hipotesis Penelitian .....                          | 7   |
| 1.7. Hasil Yang Diharapkan.....                          | 7   |
| 1.8. Manfaat Penelitian .....                            | 7   |
| BAB II TINJAUAN UMUM .....                               | 9   |
| 2.1. Denah Lokasi Penelitian.....                        | 9   |
| 2.2. Diagram Alir Pengambilan Data .....                 | 10  |
| 2.3. Perlengkapan Penelitian .....                       | 14  |
| 2.4. Akuisisi Data Metode Geomagnetik (Base Rover) ..... | 15  |
| 2.5. Geologi Daerah Penelitian .....                     | 16  |
| BAB III DASAR TEORI .....                                | 24  |
| 3.1. Endapan Epitermal .....                             | 24  |
| 3.2. Konsep Metode Geomagnetik.....                      | 27  |
| 3.3. Gaya Magnet .....                                   | 28  |
| 3.4. Kuat Medan Magnet.....                              | 28  |
| 3.5. Induksi Magnet.....                                 | 29  |
| 3.6. Teori Potensial Magnetostatik.....                  | 30  |
| 3.7 Variasi Medan Magneti Bumi .....                     | 34  |
| 3.8 <i>Reduce to Pole</i> .....                          | 34  |
| 3.9. <i>Pseudogravity</i> .....                          | 36  |
| 3.10. <i>Gradient Horizontal</i> .....                   | 38  |
| 3.11. <i>Tilt Derivate</i> .....                         | 39  |
| BAB IV HASIL PENELITIAN .....                            | 40  |
| 4.1 Peta <i>Total Anomaly Intensity</i> .....            | 40  |
| 4.2 Peta <i>Reduce to Pole</i> .....                     | 41  |
| 4.3 Peta <i>Pseudogravity</i> .....                      | 42  |
| 4.4 Peta <i>Horizontal Gradient</i> .....                | 43  |

|                                   |    |
|-----------------------------------|----|
| BAB V PEMBAHASAN .....            | 45 |
| BAB VI KESIMPULAN DAN SARAN ..... | 52 |
| 6.1. Kesimpulan.....              | 52 |
| 6.2. Saran.....                   | 52 |
| DAFTAR PUSTAKA .....              | 53 |
