ABSTRACT

Micro, Small and Medium Enterprises (SMEs) are economic activities of the people who stand-alone and small and dikekolaby community groups or families. SMEs greatly affect the national economy, because it can absorb very high unemployment and provide the highest contribution to the Gross Domestic Product (GDP). However, many SMEs do not provide or prepare financial statements in its efforts. The cause is that SMEs are too focused on the process of production and operation, so do not pay attention to records or book keeping
