

RIYUN TRI HARMI, 2026. Analisis Faktor-faktor yang Memengaruhi Partisipasi Petani pada Program Penanaman Garut di Lahan Bawah Tegakan Hutan Rakyat (Kasus pada Kelompok Tani Hutan Wono Rukun Santoso Kalurahan Wonolelo Kapanewon Pleret Kabupaten Bantul). Dibimbing oleh Nanik Dara Senjawati dan Eko Murdiyanto.

ABSTRAK

Penelitian ini bertujuan untuk: 1). Menganalisis tipe partisipasi anggota KTH Wono Rukun Santoso pada Program Penanaman Garut di Lahan Bawah Tegakan Hutan Rakyat di Kalurahan Wonolelo Kapanewon Pleret Kabupaten Bantul dan 2). Menganalisis faktor-faktor yang memengaruhi partisipasi petani pada Program Penanaman Garut di Lahan Bawah Tegakan Hutan Rakyat di KTH Wono Rukun Santoso di Kalurahan Wonolelo Kapanewon Pleret Kabupaten Bantul. Metode penelitian menggunakan metode kuantitatif dengan jenis analisis deskriptif. Penentuan lokasi penelitian ini menggunakan metode *purposive* yaitu Kelompok Tani Hutan Wono Rukun Santoso Kalurahan Wonolelo Kapanewon Pleret Kabupaten Bantul. Metode pengambilan responden menggunakan metode *non probability* sampling dengan teknik *sensus responden*. Jenis data yang digunakan adalah data primer dan data sekunder. Teknik pengumpulan data dengan wawancara, dokumentasi, dan observasi. Untuk menganalisis pengaruh faktor tingkat pendidikan, mata pencaharian, pengalaman berusahatani, kinerja penyuluh dan fasilitasi pemerintah terhadap partisipasi anggota kelompok tani hutan menggunakan *regresi linier* berganda. Hasil penelitian menunjukkan bahwa 1). Tipe partisipasi anggota kelompok tani hutan Wono Rukun Santoso pada tipe *Delegation* dan 2). Pengalaman berusahatani, kinerja penyuluh dan fasilitasi pemerintah memengaruhi partisipasi anggota kelompok tani hutan pada program penanaman garut di lahan bawah tegakan hutan rakyat.

Kata kunci: partisipasi, penanaman garut, hutan rakyat.

RIYUN TRI HARMI, 2026. *Analysis of Factors Influencing Farmer Participation in the Arrowroot Planting Program in the Understory of Community Forests (A Case Study of the Wono Rukun Santoso Forest Farmers Group, Wonolelo Village, Pleret District, Bantul Regency). Supervised by Nanik Dara Senjawati and Eko Murdiyanto*

ABSTRACT

This study aims to: 1). Analyse the Type of Participation of Wono Rukun Santoso Forest Farmers Group members in the Arrowroot Planting Program in the Understory of Community Forests in Wonolelo Village, Pleret District, Bantul Regency., and 2). Analyze the factors influencing farmer participation in the Arrowroot Planting Program in the Understory of Community Forests in the Wono Rukun Santoso Forest Farmers Group (KTH) in Wonolelo Village, Pleret District, Bantul Regency. The research method used a quantitative method with a descriptive analysis type. The location of this study was determined using a purposive method, namely the Wono Rukun Santoso Forest Farmers Group, Wonolelo Village, Pleret District, Bantul Regency. The method of selecting respondents uses a non-probability sampling method with a respondent census technique. The data types used were primary and secondary data. Data collection techniques included interviews, documentation, and observation. To analyze the influence of factors such as education level, livelihood, farming experience, extension worker performance, and government facilitation on the participation of forest farmer group members using multiple linear regression. The results of the study show that 1). The participation type of Wono Rukun Santoso Forest Farmer Group members is Delegation type. and 2). Farming experience, extension worker performance, and farming experience influenced the participation of forest farmer group members in the arrowroot planting program in the understory of community forests.

Keywords: participation, arrowroot planting, community forests.
