BAB I. PENDAHULUAN ............................................................................................... 1
   A. Latar Belakang ...................................................................................................... 1
   B. Identifikasi Masalah ............................................................................................ 5
   C. Tujuan Penelitian ............................................................................................... 5
   D. Kegunaan Penelitian ........................................................................................... 5
   E. Tinjauan Pustaka ................................................................................................ 6
      1. Landasan Teori ............................................................................................ 6
         a. Klengkeng ................................................................................................. 6
         b. Biaya ......................................................................................................... 7
         c. Definisi Proyek ......................................................................................... 9
         d. Analisis Finansial Proyek .................................................................... 10
         e. Analisis Kelayakan Proyek .................................................................. 10
         f. Analisis Finansial .................................................................................. 11
         g. Kelayakan .............................................................................................. 11
         h. Net Present Value .................................................................................. 12
            i. Payback Period ................................................................................... 14
   F. Penelitian Terdahulu ......................................................................................... 16
   G. Kerangka Pemikiran ......................................................................................... 18
   H. Hipotesis ............................................................................................................ 20
   I. Batasan Penelitian ........................................................................................... 20
   J. Defenisi Operasional Dan Pengukuran Variabel ............................................. 20
   K. Metodologi Penelitian ..................................................................................... 22
      1. Metode Dasar Penelitian ......................................................................... 22
      2. Metode Pelaksanaan Penelitian ................................................................. 22
      3. Macam, dan Sumber Data ....................................................................... 23
         a. Macam Data .......................................................................................... 23
         b. Sumber Data ......................................................................................... 23
         c. Metode Pengumpulan Data ................................................................ 23
   L. Teknik Analisis Data dan Pengujuan Hipotesis .............................................. 24
      1. Net Present Value ....................................................................................... 24
      2. Payback Period ......................................................................................... 25
BAB II. KEADAAN CV.TELAGA NURSERY .................................................. 28
   A. Sejarah Dan Perkembangan ............................................................. 28
   B. Keadaan CV.Telaga Nursery ............................................................ 31
      1. Teknologi Pada CV.Telaga Nursery ............................................ 31
      2. Tenaga Kerja .............................................................................. 32
      3. Lokasi CV.Telaga Nursery .......................................................... 33

BAB III. TINJAUN UMUM PEMBIBITAN KLENGKENG ITOH .................. 34
   A. Syarat Pembibitan ........................................................................... 34
      1. Lokasi .......................................................................................... 34
      2. Kesuburan Tanah ........................................................................ 34
      3. Kondisi Iklim ............................................................................. 34
      4. Sumber Daya Produksi ............................................................... 35
   B. Pengolahan Pembibitan ................................................................... 35
      1. Media Tumbuh Dalam Polybag .................................................... 35
      2. Cara Pengganti Polybag .............................................................. 36
      3. Naungan Bibit ............................................................................ 37
      4. Tempat Pemeliharaan Bibit Berpolybag ...................................... 38
      5. Pemeliharaan Bibit ..................................................................... 38
   C. Metode Pembibitan CV.Telaga Nursery ........................................... 40
      1. Okulasi ....................................................................................... 40
      2. Sambung Sisip........................................................................... 48

BAB IV. HASIL PENELITIAN .................................................................. 53
   A. Analisis Biaya.................................................................................. 53
      1. Biaya Investasi ........................................................................... 53
      2. Biaya Oprasional ....................................................................... 57
      3. Benefit ....................................................................................... 60
      4. Net benefit ............................................................................... 61
      5. Discount Factor ......................................................................... 62
   B. Net Present Value ......................................................................... 63
   C. Payback Period ............................................................................. 64

BAB V. PENGUJIAN HIPOTESIS ..................................................... 65

BAB VI. PEMBAHASAN ........................................................................ 67

BAB VII. KESIMPULAN DAN SARAN ................................................. 70
   A. Kesimpulan .................................................................................. 70
   B. Saran ........................................................................................... 70
